

# Scaffolding & Access Services

At DIALOG Fitzroy we don't just build scaffolds, we create confidence. Our team of skilled scaffolders and access service specialists, deliver safe, innovative and efficient access systems across New Zealand and Australia. Focused on commercial and industrial environment's we have the expertise and knowledge to erect and manage scaffolding and access systems, from simple design to complex engineered access systems.

# Comprehensive Scaffolding & Access Services

We offer a full suite of scaffolding solutions, combining traditional tube & clip with Layher modular systems to deliver the most effective and efficient access designs. We are equipped to handle projects of any scale.

- ▶ **Layher Modular Systems:** Engineered for speed, safety, and precision: ideal for uniform and complex structures.
- ▶ **Custom Design Integration:** We blend systems to create tailored solutions that meet your project's unique needs.
- ▶ **Award-Winning Execution:** Recognised for excellence in safety, innovation, and performance.

End to End Solutions

## Rigging Services

Our dual-trained scaffolders and riggers bring deep expertise to heavy lift operations, both onshore and offshore. With a proven track record, including a 630-tonne managed lift, we are trusted for the most demanding rigging challenges.

- ▶ Full suite of rigging gear: chain & lever blocks, spreader bars, winches, slings, and more.
- ▶ Proven procedures for shutdowns, construction, and complex lifts.
- ▶ Safety-first approach with robust planning and execution.

## Abseiling & Rope Access

Our certified Level 3 and 4 abseilers perform high-skill tasks in hard-to-reach areas, including:

- ▶ Welding, fitting, painting, and corrosion maintenance
- ▶ Emergency rescue planning with a qualified Technical Rope Rescue Technician
- ▶ Regular drills and refreshers to maintain rescue readiness

## Crane Supervision & Lift Planning

Our crane supervisors bring unmatched value to your lifting operations:

- ▶ Expert lift planing for routine and complex jobs
- ▶ In-depth knowledge of NZ crane capabilities and equipment
- ▶ Focused on safety, efficiency, and cost savings

## Encapsulation & Environmental Protection

We provide full encapsulation, shrink wrapping, and containment systems for:

- ▶ Weather protection
- ▶ Environmental containment
- ▶ Personal safety on multi-storey structures

## Additional Services

- ▶ **Equipment Rental:** Extensive scaffolding inventory available for dry hire to approved users.
- ▶ **Fall Prevention:** Catch fans, covered walkways, and custom fall protection solutions.
- ▶ **Propping & Shoring:** Shore frame systems for multi-storey structural support.
- ▶ **Asbestos Removal:** Control plans, site preparation, removal, disposal, documentation.

## Safety is Our Foundation

We proactively manage safety with a zero-tolerance policy for dropped objects and a comprehensive hazard control plan:

- ▶ Tethered tools and equipment
- ▶ Controlled drop zones with barriers
- ▶ Regular site audits and compliance checks

We are preapproved with Prequal CPNZ and ISNetworld, and our team is trained in fall arrest systems and site-specific safety protocols.

# Why Choose DIALOG Fitzroy?

Our ISO certified management systems ensure every project meets the highest standards. We are committed to:

- ▶ Working collaboratively to create the right-fit solution
- ▶ Reducing total cost through best-fit solutions
- ▶ Driving innovation to improve client site productivity and safety
- ▶ Proactive safety management
- ▶ We don't just meet expectations, **we exceed them.**

## Recent Scaffolding & Access Projects

### Scaffolding

Tube and Layher engineered scaffolding system for multi-storey industrial building, arranged around external piping and venting.

### Encapsulation

Fully encapsulated commercial building with internal scaffolding, safe walk zones and a Keda roofing system (a temporary, weather-protection roof scaffolding system designed to be mobile, allowing sections of the roof

### Work Over Water

Under-wharf and bridge hanging scaffolding system utilised for bridge maintenance, repair, and painting works..

### Access Management

Multi story industrial building fully encapsulated with external and internal scaffolding including safe walk access points, confined space areas, blast and paint zones and Geda hoist for safe personnel access and raising and lowering of material to different levels.
